INTERNSHIP

Web Developer Intern

Codec Technologies

August 2025 – October 2025

Completed internship focused on front-end and full-stack web development. Gained hands-on experience with React, Tailwind CSS, Firebase, and Socket.IO. Developed two major projects during the internship:

• **Real-Time Chat Application:** Built using React, Tailwind CSS, and Socket.IO for instant messaging and responsive UI.

• **Job Portal System:** Developed using React, Tailwind CSS, and Firebase with authentication and real-time job listing features.

PROJECTS

Portfolio Website

- Developed a responsive portfolio website using HTML, CSS, and JavaScript to showcase my web development projects and skills.
- Implemented a clean, modern design with a user-friendly interface to enhance user experience and navigation.
- Utilized CSS Flexbox and Grid for layout design, ensuring the website is fully responsive and visually appealing on all devices.
- Technologies Used: HTML, CSS, JavaScript.

Amazon Clone

- Developed a faithful frontend replica of the Amazon using HTML, CSS replicating the user interface and visual elements of the original platform.
- Technologies Used: VS Code, UI/UX Replication.

AI Weather Reporter

- Built a responsive AI-powered web application that delivers personalized weather reports via email.
- The app allows users to input their name, email, location and then sends a detailed weather details for the entered location to the user's email address.

CERTIFICATIONS AND TRAINING

- C++ Master Course – *Coding Blocks*
- CSS Certification – *HackerRank*
- Generative AI Studio – *SkillUp by Google*
- UI/UX for Beginners – *Great Learning*
- Front-End Web Development – *Udemy*
